Summary

Frontend Engineer with 1 year of experience and 6 months of internship, skilled in building responsive web and mobile interfaces using React.js, Next.js, and Flutter. Strong UI/UX design foundation with backend exposure in Nest.js and Node.js

EXPERIENCE

Varp Techlabs, Pune — *Frontend Engineer*
Jul 2024 - PRESENT

- Developing responsive frontend solutions using **React**, **Next.js**, and **Flutter**.
- Collaborating with cross-functional teams to build scalable and maintainable frontend systems.
- Integrating frontend with backend services using **RESTful APIs** and **Nest.js**.
- Created complex, responsive **Webflow** sites with dynamic content such as blogs, team pages, and case studies.
- Enhanced SEO and user engagement through modern design and layout improvements.

Confidential Client, Indonesia — *Frontend Developer (Freelance)*
Jan 2025

- Delivered a fully responsive and visually engaging website within one week, tailored to client's brand identity.
- Implemented mobile-first design principles and optimized performance across devices.

Confidential Client, Delhi — *Wordpress Developer (Freelance)*
Feb 2025

- Designed and developed a custom **WordPress** website featuring service listings, team profiles, and blog functionality.
- Focused on maintaining brand consistency and ensuring responsive, cross-device compatibility.

Varp Techlabs, Pune — *Web Developer Intern*
Jan 2024 – Jun 2024

- Built and enhanced user interfaces using **React** and **Webflow**.
- Contributed to web application performance optimization and gained hands-on experience in collaborative development environments.

Dharohar, Delhi — *Wordpress Developer (Freelance)*
Jun 2021 – Aug 2021

- Built and customized a WordPress-based e-commerce platform with features including user accounts, shopping cart, product pages, and payment integration.
- Created the brand's visual identity, including logo design, aligning with the client's aesthetic and business goals.
- Ensured full responsiveness and consistent user experience across devices and browsers.

SKILLS

Frontend:
React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend:
Node.js, Nest.js, PHP, Python (Flask)

Mobile Development:
Flutter, Dart

CMS & No-code Tools:
Webflow, Wordpress

Tools & Technologies:
Git, Firebase, REST APIs, UI/UX Design, Responsive Design, Web Accessibility

EDUCATION

MIT WPU- Pune
Master of Computer Applications
Aug 2022 - Jun 2024

ITS- Ghaziabad
Bachelor of Computer Applications
Aug 2019 - Jun 2022

Soft Skills

- Communication & Team Collaboration
- Problem-Solving & Logical Thinking
- Time Management & Accountability
- Adaptability in Fast-Paced Environments
  UI/UX Sensitivity and Creativity

PROJECTS

- **Food Order** — React.ts
  A React.ts food ordering app where users can browse items, add them to a cart, manage cart contents, and proceed to checkout.
- **Chat App** — Flutter & Firebase
  A real-time chat app with Firebase integration and user authentication using Flutter.
- **Spending Tracker** — Python (Flask) & Javascript
  A Flask app for tracking expenses from CSV uploads. It visualizes spending through charts and filters by amount range.
- **Forum Website —** PHP, HTML & js
  A PHP-based interactive forum platform supporting threads, categories, authentication, and replies, built for structured discussions.
- **Weather App —** Flutter & OpenWeather API
  A Flutter app showing real-time weather data using the OpenWeatherMap API.
- **Repo Explorer —** HTML, CSS & JavaScript
  A web app that lets users search and explore GitHub repositories. Built with vanilla js, it features user-friendly repo navigation and real-time search functionality.
- **Resume Maker —** React.js
  A modern React-based resume builder that allows users to craft professional resumes with customizable layouts and responsive UI.
- **Reflex Timer —** React.js

A reflex-testing game built with React.js, where players try to stop a timer as close to a target time as possible. Includes multiple challenge levels.
